

Wisconsin Lions Camp

Health Care Information

Youth – Blind or Visually Impaired

Our Health lodge and our Healthcare Staff are ready to make sure your camper stays healthy during their stay at Camp! Our team consists of at least two Licensed Healthcare Staff who stay for the week, 2-3 Healthcare Specialists who assist the licensed staff, and our Healthcare Supervisor, Amanda Dehli.

- **General Information:**

- The health lodge is open from 7 am – 10 pm with a Licensed Healthcare Staff on call each night from 10 pm – 7 am for illness or injury.
- Medication administration times are scheduled around meals and the camp schedule. Regular times are 8 am, noon, 6 pm and 8:30 pm.
- In emergencies, we are served by Rosholt Area First Responders and Stevens Point ambulance service with paramedics. We have several staff who are First Responders. The hospital we use is Aspirus St. Michaels and our Medical Director who works with us to approve our healthcare standing orders, policies and procedures is Dr. Trina Daniels, who is the Medical Director of the Emergency Room at St. Michaels.
- If your camper experiences a fever, vomiting, diarrhea or other symptoms of a contagious disease within 72 hours of Camp time, please notify us immediately to discuss camp attendance.
- If your camper experiences a fever, vomiting or diarrhea that lasts more than 12 hours here, we will send your camper home from Camp.
- We strongly encourage your camper brings a labeled, reusable water bottle, sunscreen and bug spray to have to Camp to stay hydrated and protect them from the sun and bugs.
- The Wisconsin Lions Camp does not carry any type of medical insurance for our campers. You are responsible for any and all medical costs incurred for any urgent care or emergency room treatment for your camper while at Camp.

- **Required Forms:**

The following forms **must** be at Camp by June 27, 2025. **We will cancel any camper who does not have their forms in by the deadline.**

- A health history form, to be filled out by the guardian annually for up-to-date health information. This is automatically sent to you via email or by mail six weeks prior to your camper's attendance to ensure your health information is up-to-date for Camp.
- A physical examination form, based on an exam dated after August 2, 2023 filled out by a licensed MD, PA or NP must be on file. This is only due if it is sent to you in the confirmation packet – exams are good for 24 months. We

are happy to fax the physical form to your provider and have them fax the completed form back to us. Guardians need to call the provider to get their fax number and call Michelle in the office with that number to get that process going. Physicals must be faxed or mailed to us; we are unable to upload them into our camper database.

- All follow-up forms such as seizure, mental health concerns, anaphylaxis allergy or asthma questionnaires need to be filled out to give us detailed information about the condition as well as educate staff on how best to care for your camper at Camp.
 - A waiver form, to grant permission for medical treatment and care.
- **Pre-Camp Calls:**
 - Our licensed healthcare staff will call you the week prior to Camp to update your camper's health information and ensure we have everything to care for you in the health lodge. This helps speed up check in at registration.
 - **Prescription Medication:**
 - Please turn in all prescription medications to the health lodge. All medications must be in the original container with your camper's name, dosage and times clearly stated. If any information is missing, or the dosing was changed without updating the prescription label, we cannot administer that medication. Please consider which medications are necessary for the week your camper is at Camp and plan accordingly by only bringing what is needed plus one or two extra.
 - **Vitamins and Supplements:**
 - Vitamins and supplements are accepted in the health lodge. They must be in their original containers with your camper's first and last name clearly written on the bottle. We cannot administer any supplements that contain any CBD, THC or essential oils products.
 - **Over the Counter Medications:**
 - We carry a variety of common over the counter medications for the occasional need. If your camper takes an over-the-counter medication daily (for example, Claritin for allergies) you will need to bring your camper's own supply.
 - **Medical Equipment:**
 - For any medical equipment your camper may use, such as CPAP machines, Camp does not have any extra chargers, face/nose masks, power cords or distilled water. Please make sure your camper has everything you need. If your camper will need assistance with your medical device, our weekly health lodge staff will ask you and your

camper to walk us through how the device works, common troubleshooting, and ask who to contact if there are problems

- **Phone Calls Home:** Our health lodge staff will contact you for the following issues:
 - To consult you for further medical information.
 - Any care needing an out-of-camp appointment.
 - Any medical emergency where 9-1-1 is called.
 - An illness that lasts for more than 4-6 hours. Illnesses over 12 hours require a camper to be sent home.
 - Any non-compliant behavior around health care, such as a refusal to take medications or treat medical condition.
 - Other medical situations or symptoms that you, the parent/guardian, would like us to contact you for should they occur.

- **Questions?**
 - Contact our Healthcare Supervisor Amanda Dehli.
 - Email: adehli@wisconsinlionscamp.com
 - Phone: 715-677-4969 ext. 334
